for this since I could get the same instructions from the internet video. I thought the book would have more variety.³ of 3 people found the following review helpful. Love the patternsBy KellyLove the patterns, but the instructions and actual design of the book could be much better. Instead of sketches it would hve been nice to have actual photograph step by step instructions for the more complicated portions, such as added in the offset blocks.² of 2 people found the following review helpful. Need to make a quilt top tonight?By Murna SparksI got this book and 10-Minute Blocks 2. Love both of them. Lots of fun ideas and the blocks go together in 10 minutes or less...once you get going. 12 blocks makes a quilt top. The blocks finish at 19".

It's not your grandmother's patchwork technique. This book shows you the '10-minute' block technique allows you to piece a top, even a king-size one, in a morning. With the help of this technique, you can create big blocks with a diamond center and curved edges without sewing any curved seams-it's a quilters dream come true. With help for beginning quilters and ideas for the more experienced this book is perfect for anyone who wants the time to sew twice as many quilts as before. Seven quilting projects with full color photos of the finished show you the way. Author-suzanne mcneill. Softcover-35 pages. Made in USA.
