By early evening I had read the entire book from cover to cover. As soon as I finished reading I just had to create. Before I went to bed I finished the adorable birdhouse card on page 130.I love this totally inspiring book. The directions are excellent and the photographs are amazing. I've already picked out the birthday card I want to make for my daughter's birthday and the

baby shower card that I want to make for a friend who's expecting her first baby in July. Thank you Kimber for another wonderful book! 6 of 6 people found the following review helpful. FANTASTIC! By Leica Forrest I received my book from as I am NOT a card maker in any way. I bought it with hopes to be inspired and have ideas to think about. I found that the book was so full of ways to make cards on a beginner level and then how to step it up. I made 2 cards right after reading it and seriously have been hooked ever since. Thanks for creating one of the best books in this industry. Lots of ideas. 2 of 2 people found the following review helpful. Full of great ideas! By Kris A. Johnson I am a long time stamper and was in need of new ideas. This book is FULL of them!! I will learn and use these techniques over and over and I'll change the theme of the card as needed. I'd definitely order this book if you are looking to make cards that are not the typical bi-fold card we all can make.
