before purchasing it in order to gage whether or not it would be worth my time, and all praised 1000 Great Quilt Blocks (That Patchwork Place):

6 of 6 people found the following review helpful. Love this book!By just interestedI read the reviews and this book and was mixed about buying it. Needless to say... I love it! It has tons of blocks. They are small, but anyone with minimal math knowledge should be able to translate the small pictures into block patterns. It does not show you how to piece the blocks, but with a little research, or quilting knowledge, anyone should be able to piece most of the blocks. It is in black and white shades, but it is made as a directory/reference. It is excellent, especially for someone looking for something different to make.0 of 0 people found the following review helpful. Three StarsBy P. PowellIt's Ok, I hoped more more in this book...Mostly pictures not really directions...0 of 0 people found the following review helpful. Two StarsBy Donna PhillipsThe book does show 1000 blocks, but does not give patterns for most of them

This incredible library of quilt-block patterns contains a lifetime of inspiration for quilters of all skill levels. Choose from familiar favorites and not-so-well-known surprises. Features 1000 block diagrams, plus hints and tips to make stitching easy and fun Designs are organized by style and include strips, curves, baskets, and even alphabets Each block pattern contains an easy-to-follow piecing guide
