Larry Carey : 1002 Salt and Pepper Shakers (Schiffer Book for Woodcarvers) before purchasing it in order to gage whether or not it would be worth my time, and all praised 1002 Salt and Pepper Shakers (Schiffer Book for Woodcarvers):

Millerwith all the salt and pepper books I have been getting, is to build up my library (so to speak) and this book is a very good addition.1 of 1 people found the following review helpful. One Person's Private Collection!!By Kiral bought this book thinking it would be helpful in pricing salt and pepper shakers. What a joke! The majority of the shakers are duplicates, posted over and over again!! The book is devoted almost exclusively to "bobbers", who has seen those in 50 years???? And then I can't begin to cover all the ones that are totally politically incorrect! I am all for Freedom of Speech and enjoy a joke as much as anyone else, but these should just be retired! I consider this book a waste of paper and money. I plan to put it up for sale and hope to get back some of my money. I will be more careful in the future. Take my advice and

don't bother with this unless you are a fan of "bobbers" and repetition. 4 of 14 people found the following review helpful. a terrible book
