I have collected many of his books and, as a needleworker, of course I have several of the Dover Publications including: Celtic Design Coloring Book (Dover Design Coloring Books) Celtic Design Coloring Book (Dover Design Coloring Books) Celtic Art: The Methods of Construction (Dover Art Instruction) This set of books is really charming. I own this one plus 101 Celtic Illuminated Letters and I plan to get these as well: 101 Celtic Knotwork Designs 101 Celtic Crosses 101 Celtic Spirals 101 Celtic Borders I feel like I'm advanced enough to design my own cross stitch or other needlework projects. These patterns are great because they're both authentic and usable. The books are inspirational; there's something about the bw line drawing on the left with the full-color rendition on the right that makes it easy to picture what your own color scheme would be. Designs in Stone Designs in Metalwork Designs in Illuminated Manuscripts Every single design is captioned for what the symbolism and the origin of this particular drawing. It's quite interesting to me that the most important thing about these images is not necessarily what the picture is but what media provided that specific image. A lot of research and analysis went into these otherwise easy-reading book. 4 of 4 people found the following review helpful. Great for Cross Stitch By L. Skelton My hubster is full-blooded Irish and I got interested in Celtic stuff Bcuz of him. I got this because I love the myths and the Celtic astrology and I cross stitch. Since Celtic cross stitch patterns are few and far between, I bought this book to use with my Pattern Maker software. I can scan the illustration I want and turn

it into a cross stitch pattern to create. It's wonderful for this purpose Bcuz the colors are bright and bold and easy for the software program to pick up. I love the book. It would be nice to have it a bit larger, but is easy to take in my pocket size-wise. 1 of 1 people found the following review helpful. Nice collection. By Kindle Customer The book is a great guide to patterns that were used by the Celts and will make a great addition to any collection.

A comprehensive design source book of all types of Celtic beasts by leading exponent of Celtic art, Courtney Davis. "The 101 beasts" cover the whole history of Celtic design from examples found on ancient Celtic manuscripts such as the Lindisfarne Gospels and the Book of Kells, to Courtney Davis's own celebrated modern interpretations. The 101 animal designs are all hand painted by Courtney Davis and printed in full colour. Each is accompanied by a black-and-white version of the same design on the adjacent page - perfect for use on personal art, design and craft projects. The introduction gives a brief history of the Celts and an explanation of the birth and development of their artistic style with particular relation to animal designs.
