**Courtney Davis : 101 Celtic Borders** before purchasing it in order to gage whether or not it would be worth my time, and all praised 101 Celtic Borders:

Like Lord Dreamweaver's wife, here, I got this book because of stitching and to supplement my Dover Celtic books By Jane in Milwaukee I've begun collecting these 101 Celtic books by Courtney Davis. He's an amazing author, a true expert on all that is Celtic art. I've had the many Dover coloring and needlework books for years like: Celtic Charted Designs (Dover Embroidery, Needlepoint) Celtic Animals Charted Designs (Dover Embroidery, Needlepoint) Charted Folk Designs for Cross-Stitch Embroidery: 278 Charts of Ancient Folk Embroideries from the Countries Along the Danube (Dover Needlework) Celtic and Old Norse Designs (Dover Pictorial Archive) Celtic Design Coloring Book (Dover Design Coloring Books) Color Your Own Book of Kells (Dover Art Coloring Book) The greatest thing about the Celtic 101 books is they give you a lot of ideas as to the colors to use to color or stitch the line drawn designs in these other books. Another lovely thing is the line drawing is on the left-hand page and the colored one is on the right. So once you get some ideas of how to draw the overall design, you're given ideas of coloration and vice versa. I have several other books by Courtney Davis and really enjoy them: Celtic Illumination: The Irish School (Celtic Design) as well as others in this series: 101 Celtic Illuminated Letters 101 Celtic Beasts 1 of 1 people found the following review helpful. Great images, but a small book By Lord Dreamweaver This was another addition to my wife's cross stitch library of images that she could use to create a new design. The book has some great Celtic inspired borders, but the book is on the physically small side, and a bit difficult to put on the scanner. My wife basically broke the back of the book, so that she could use the images. She truly likes

the Dover books, because of their size and ease of use, better than this series. Just her personal thing. Overall, a great resource for images, but the book itself is on the small side.

A comprehensive design source book of all types of Celtic borders by leading exponent of Celtic art, Courtney Davis. "The 101 borders" cover the whole history of Celtic design from examples found on ancient Celtic manuscripts such as the Lindisfarne Gospels and the Book of Kells, to Courtney Davis's own celebrated modern interpretations. The 101 border designs are all hand painted by Courtney Davis and printed in full colour. Each is accompanied by a black-and-white version of the same design on the adjacent page - perfect for use on personal art, design and craft projects. The introduction gives a brief history of the Celts and an explanation of the birth and development of their artistic style with particular relation to border designs.
