Susan Briscoe : 130 Mini Quilt Blocks: A Collection of Exquisite Patchwork Blocks Using Ready-Made Fabric Bundles before purchasing it in order to gauge whether or not it would be worth my time, and all praised 130 Mini Quilt Blocks: A Collection of Exquisite Patchwork Blocks Using Ready-Made Fabric Bundles:

7 of 7 people found the following review helpful. Great Book!By A BellI want to start making mini wall hangings (had enough of large projects for awhile). This book has lots of really nice mini blocks. They are in color, broken up into sections (stars pinwheels, english traditions etc.) and tells you what number and kind of pieces to cut. The book exceeded my expectations.I can't wait to start making some blocks!13 of 13 people found the following review helpful. Fantastic bookBy Susan PiluttiBeautifully illustrated. This book has all of the mini blocks shown together across two pages so you can easily find the one you want. The instructions for each individual block are clear and concise and printed below a large picture of the block. This is my first attempt at making miniature blocks and this book is just what I need to do it. Love it!3 of 3 people found the following review helpful. Definitely check it out.By MJ SmithI am new to quilting but not to quilts. This book had diagrams that enabled me to clearly see the patterns. There are so many I love, this book is full of great things. I liked it so well that I bought a copy for my best friend.

This book contains a collection of beautiful patchwork and applique designs, including traditional favorites and brand new ideas, arranged into stylishly themed chapters. The little quilt blocks have been specially designed to work at smaller sizes---perfect for making quilted projects like little bags, cushions, and potholders that will add plenty of variety and interest to even the smallest space. Each block comes with full cutting list and assembly instructions, plus mix and match suggestions to combine with other blocks, and ideas on how you might change or embellish the block design. Inspiring projects throughout the book offer plenty of ideas to get you started.

"This book just screamed versatility to me.... There is a lot of inspiration here! I found this book to be visually stimulating and a true quality resource.... With a plethora of quilt blocks such as this, the possibilities are endless." ---
