**Patrick Pasques : 3D Paper Craft Racing Cars** before purchasing it in order to gage whether or not it would be worth my time, and all praised 3D Paper Craft Racing Cars:

2 of 2 people found the following review helpful. not as good as paper cars bookBy Leona C. Boudrotno where near as good as paper cars book which I also bought and like a lot. Would not recommend

A revitalization of the paper craft has been rediscovered because of designers and artistically- and creatively-interested web users posting tutorials and then finished products on the internet and blogs. This instructive title is easy to understand and offers a wide range of car designs that can be folded and assembled. The retro-inspired design of the book will fascinate children and adults, which makes it an ideal book for entertaining the whole family.
