Book # 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised 425 Heartwarmin' Expressions For Crafting, Painting, Stitching Scrapbooking. Book # 1:

This first book in the Heartwarmin' Expressions series has been revised and now includes an array of 455 hand lettered expressions and decorative graphics, along with great tips, ideas and enlarged alphabets you can use. These heartfelt phrases, humorous quips and inspirational quotes can be used to create special gifts, cards, seasonal and home decor crafts, photo albums and keepsakes for family and loved ones, new friends, old friends, the cat, the dog and those

angels in your life. All three books include life's most popular themes, such as family, friendship, gardening, home, humor, love and more, and the expressions are different in each book. Book # 1 also includes extra expressions for doll lovers, stitching and quilting and three inspirational pages.

In the newly revised Heartwarmin' Expressions Series, Book # 1 had the least amount of decorative embellishments and clip art added. It did receive an extra friendship and gardening page and other expressions were re-done to add more variety in lettering styles. -- What People Are Saying About the Author Sandy Redburn's dedication to inspiring others' creativity includes teaching, writing and publishing books since 1993.
