By Tsteffes I was browsing through and found this adorable book for ABC crafts and learning. I was completely sold from the very first project and all the ones that followed...adorable! Not only are these delightful crafts easy and fun to do, they are immediate works of art for your child's room. In addition, many of these activities

become games to play afterwards (I'm thinking of the Rock craft, which then becomes an identification game). This book will provide hours and hours of fun for both you and your child. If you are a daycare provider, you will love how inexpensive these crafts are! This book would be a perfect baby shower gift, too! 1 of 1 people found the following review helpful. Children learn best through hands-on activities By Jodie Rodriguez Children learn best through hands-on activities. I was impressed with the quantity and quality of ideas in this book. The activities are well laid out, creative and engaging. Plus, the layout is easy on the eyes and super easy to find an activity for any letter you are working on with a child.

50 Alphabet Crafts for Little Kids includes crafts for letter recognition, letter formation and word recognition. It also features a fun and engaging craft for every letter of the alphabet! Easy step-by-step instructions are provided for each simple craft, with helpful color photographs to guide you through every project. Make learning fun with your little one and get crafting with your child today!
