It provides helpful and inventive tips on how to create a work of art. I love how the border pages and sayings are easily combined for scrapbooking. I have used this book for scrapbooking, card making as well as printing up posters for our Day Care Centre Christmas concerts. I highly recommend this book to all crafters.1 of 3 people found the following review helpful. Just what I expected...By AmandaDon't get me wrong, any help with the title department for my pages and my cards is appreciated. I was afraid that this book would be filled with "hokey" sayings. When I received this book yesterday, I looked through it and found just what I had expected. Yes, it's nice to have all of the sayings in one book. But they are mostly predictable or already heard of.This could be

because this is the first edition of this series. I will continue to collect these books because I do feel they are an asset.

This new 2002 revised edition is brimming with new designs and many expressions have been added, or re-done to update this already popular book. By eliminating some of the enlarged alphabet pages and old designs, 16 brand new pages were added with updates to almost every page. The biggest buyers of these books are scrapbookers, card makers and people wanting to make their crafts and keepsakes more special. This book now includes over 500 hand lettered expressions and 100's of whimsical divided into themes called: Angels, Baby Love, Birthday, Blessings, Christmas, City Country Critters, Dolls, Family, Friendship, Funny Bone Ticklers, Gardening, Girl Talk, Guy Talk, Halloween, Hobbies, Home, Housework Stinks, Inspiration, Kitchen Quips, Love, Over the Hill, Sports, Stitching Quilting, School Daze, Teddy Bears and Vacationland. For the first time, this book also has nine color samples on the back cover with directions for fun scrapbook pages and keepsake projects inside. The beginning of this book, as well as the other three titles in the series also includes easy tricks, helpful tips and inspiring ideas on how to use expressions to add personality and heart appeal to almost any surface.
