By Sonia Higgs This is one of the best books if you want good quality photos of 500 inspirational quilts. These are not just reproductions of old quilts, traditional quilts have inspired them but they use stunning colour schemes and design updates. Very very impressed with this book, it is my current favourite design inspiration resource and I have a reasonable collection already. Some of the best quilts from the most amazing quilters from around the world. Buy it you won't be disappointed. 0 of 0 people found the following review helpful. For anyone who appreciates the fine art, (and it is an art) By book junkie I used to work for the woman who was the juror for this collection. I know how much time and attention Karey puts into each of her books, and this one certainly shows this discernment. For anyone who appreciates the fine art, (and it is an art), of beautiful quilts will love this book. 0 of 0 people found the following review helpful. Four Stars By Centhia Adcox Good
