**Phyllis Fiarotta, Noel Fiarotta : A-B-C 1-2-3 Craft Book: Make a Cloth Book of Exciting Learning Toys** before purchasing it in order to gauge whether or not it would be worth my time, and all praised A-B-C 1-2-3 Craft Book: Make a Cloth Book of Exciting Learning Toys:

4 of 4 people found the following review helpful. Can this be any cuter? No! By T. Maddox I'm new to the world of cloth books but have jumped right in. This book is amazing and perfect for beginners like me or someone who wants inspiration. There are so many creative ideas, whether you choose to use them as is or adapt them. I also like that there are suggestions for the topics you can discuss with your child based on each design. Most of the designs use felt but you could mix that up with fabrics from your stash and so on. It's a really great resource if you're interested in this sort of thing. 3 of 3 people found the following review helpful. Great Idea Springboard By R. White I loved the ideas in the book and they were so cute. I would have liked full size patterns to copy though. Aside from that, I thought it was a great book. I wish there had been a little more in the way of instructions for some of the activities, but overall I could figure it out or fake it. If I wasn't thrilled about a certain picture or pattern, I could still use what was in the book to come up with my own ideas on what to do. So it had good patterns and served well as a springboard to other ideas for me. I would recommend it. It offered other craft and activity ideas, which was not what I got the book for, but may come in handy sometime. 0 of 0 people found the following review helpful. Looks like it will be fun. By g0531 I have a new grandson that I plan on making several quiet books for. I haven't done any sewing yet, but I did look through the

book.

Make a soft toy alphabet book which transforms each letter and number into an early learning experience. Every letter or number has topics for discussion and an activity to teach a basic skill.
