Raymond E. Barlow Barlow : A Guide to Sandwich Glass before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Guide to Sandwich Glass:

This is the smaller version of the Sandwich catalog with items numbered 4001-4391. The larger hard back catalogs have no pricing in the back, where these smaller versions do have the prices of items in the back of the book. 2 of 2 people found the following review helpful. Truly a definitive guide... By Nickolas L. Vannello Amazing amount of detail about Sandwich Glass. If you get a chance to visit the Sandwich Glass Museum, it's one of the best in the country. Otherwise, this guide comes a close second to learning about Sandwich. 0 of 0 people found the following review helpful. Five Stars By yeeware Great reference.

The lure of Sandwich glass still exists for collectors, almost one hundred years after it was last manufactured. With this guidebook, containing 322 full color photos, as well as diagrams like the Dolphin candlestick, those who enjoy American glass will be greatly helped in their effort to identify that which was made in Sandwich. A price guide is available and will be updated regularly. It represents a unique contribution to the complete identification and evaluation of Sandwich glass.
