Connie Stone, Emola Lowe : Adorable Sock Dolls to Make Love before purchasing it in order to gage whether or not it would be worth my time, and all praised Adorable Sock Dolls to Make Love:

This book is beautifully illustrated with color photos and has large print, easy to read instructions. (I do agree that the projects seem to run together.) The term "dolls" is misleading, as they include everything from zoo/farm animals to clowns and snowmen. The book offers baby-friendly instructions, but I am disappointed that most of the photos only show the dolls with "over 3 years" eyes and noses. I do appreciate the tips, stitching illustrations (although some of these are confusing for a true beginner), and the essential/important information underlined for clarity.I have to admit that I have not actually tried any of the projects, but I have already made a shopping list for 6 of them. I think those with a crafty streak will find that these sock dolls give store-bought beany babies a run for their money! I look forward to giving them as gifts.0 of 0 people found the following review helpful. Five StarsBy Galegreat3 of 3 people found the following review helpful. Cute, But I make them CUTER!!!!By EllaLou DesingsI bought this book after already having some knowledge of creating sock monsters,

animals, etc. If you are a newbie to this whole thing, this book is okay. Its a bit outdated and some of the work is not spectacular. But, if you are just looking for ideas to work off of, its okay. Visit my site at [...] and you can see some sock creations I've made.

A simple, old-fashioned concept...Mother-daughter team Stone and Lowe have obviously perfected the how-tos... theirs begins by telling allmaterials, tools, and the basic shaping and attachment instructions. There are more than 35 projects with dolls fashioned on zoo and farm creatures as well as anthropomorphic beings....Color photographs are plentiful.Booklist.

From BooklistIt is such a simple, old-fashioned concept, if truth be told, that it is a surprise no one has resurrected the sock-doll craft--until now. Mother-daughter team Stone and Lowe have obviously perfected the how-tos; like most Chapelle-generated books, theirs begins by telling all--materials, tools, and the basic shaping and attachment instructions. Then the more than 35 projects build on the first chapter, with dolls fashioned on zoo and farm creatures as well as anthropomorphic beings (Santa, babies, Mr. Shivers the snowman, etc.). Color photographs are plentiful, yet it can be difficult to separate one doll's directions from the next. Metric conversion chart included. Barbara JacobsAbout the AuthorThe authors live in Ogden, UT.
