I really didn't think that would happen! I used to draw all the time and with a family and a full-time job, I stopped years ago, but I'm finding myself going back to sketching when I can. I still color between the lines of this wonderfully drawn book especially when I need to take a mini-vacation.I'm looking forward to more of this artist's books. The sooner the better!1 of 1 people found the following review helpful. The beautiful mandalas in this great coloring book are stunningBy H. OrkinThe beautiful mandalas in this great coloring book are stunning. Coloring is incredibly relaxing and an active form of meditation. These mandalas are the perfect medium for that kind thing. They are spiritual symbols that represent balance in the universe. They've always been used as a way to find focus and aid meditation. That makes this coloring book the perfect match between form and function. Well worth it.1 of 1 people found the following review helpful. my husband and my mother and we all love them!By Christina D.I received several coloring books..one for myself, my teen daughter, my husband and my mother and we all love them!! We have all enjoyed them very much, very relaxing! The designs are absolutely amazing! Definitely plan on buying more once we finish the ones we have. These will make

great gifts as well for holidays or anyone who just needs some major stress relief :))

A collection of 48 beautiful mandalas inspired by henna patterns and flowers. Relax and enjoy coloring these stunning designs.
