Printed one per pageBy Jackie CooperWhat a wonderful book , full of stunning, imaginative, very detailed, highly decorated, animal drawings, a couple are simply detailed, a couple more than diabolically detailed, most are just right, like the Cat I colored and I am attaching. The images are centered on each page and include both just head images and full animal images. Coloring in this book takes a steady hand, challenges your creativity, and inspires you.UPDATE::The COVER PICTURE is NOW included in the book.If you like the cover picture, you will love this book, most of the illustrations are just as good or better.(The COVER PICTURE is NOW included in the book, it is on line at the following site for you to print and color as an amazing FREE example of the other illustrations you will have when you purchase this unique coloring book.( <http://imgur.com/rZ1wMLK>).1. 40

illustrations printed one per page ( the back of each page is blank)on light weight, bright white paper<sup>2</sup>. All markers and some Gel pens will leak through the paper so place two pieces of paper under the page you are coloring and leave it there until the picture dries to prevent damage to next picture.<sup>3</sup> Illustrations are very detailed, and some are more than diabolically detailed very tiny.<sup>4</sup> The details are so tiny that you should use Colored pencils, Gel Pens, or Ultra Fine markers for this book.<sup>5</sup> I used Bic Mark it ultra fine markers to color the cat .568 of 578 people found the following review helpful. Beautiful!!By MiddernachtThis is a wonderful coloring book with artistic drawings of animals that will delight any animal lover. I just received this book yesterday and have finished coloring the turtle. I used gel pens for this picture but some of the drawings will have to be colored with pencils as some of the pictures have tiny, tiny areas. I am very happy with this book and would recommend it to anyone that isn't afraid of a challenge.PS: The grey areas on the turtle are actually silver and look much better than the picture does it justice.I also use Staedtler Triplus Fineliner gel pens. They are very fine-tipped and can reach those tiny areas. Shout-out to the publishers for sending a new copy of this book for free. That one included the lion drawing. I loved this book before now I have one more reason to love it even more.134 of 141 people found the following review helpful. Lots of cool pictures to colorBy BrittanyLots of cool pictures to color, each page has a blank back which is great so that your markers do not bleed through onto another picture. Has a mixture of extremely detailed pictures and slightly less detailed ones which is a nice variety to have.

Unleash the artist within through over 30 animal coloring pictures. Lions, tigers, dogs, cats, birds, fish, and more; there is something for everyone here. Hours of stress relief, fun and creative expression are a few colored pencil strokes away. Features over 30 images, each one a single page so no bleed through Heavyweight, artist-grade paper perfect for whatever you like to color with. Paper accepts and absorbs color so you can shade, blend, and combine any technique or medium you desire. 2015 New York Times Best Seller with over 350,000 copies sold
