Creative Flow Artists : Adult Coloring Book: Stress Relieving Patterns Flowers (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Adult Coloring Book: Stress Relieving Patterns Flowers (Volume 2):

1 of 1 people found the following review helpful. Watch your stress become a rainbow of colorsBy Connor BedellI received this book for free in exchange for my honest review.While I have not had a chance to actually do any coloring in it yet, I have looked at all of the images available, and cannot wait to get started. They look both amazing and relaxing at the same time. It has both simple and more intricate patterns. I would recommend this to anyone wanting to be able to relieve some of the daily stress in their lives. I also have Volume 1 and have enjoyed it. Would recommend both.1 of 1 people found the following review helpful. A Good Starter BookBy Karen WattieFor those of you who want to try an adult colouring book and don't think you can handle filling in a million tiny spaces, this may be the book for you. It has many interesting patterns, as well as some pages that actually translate into pictures and yet are

still full of patterns. This is a good book for the beginners, the elderly and those who don't think they have the patience for intricate details. 0 of 0 people found the following review helpful. This book is amazing for any coloring enthusiasts. By Customer This book kept me busy for hours, when I was in a time of need. I have been going through so many hardships in my life. But to be able to relieve my stress, with coloring has been a life saver. This book is amazing for any coloring enthusiasts! Very satisfying to complete each piece. My only down point of this book is, I wish I could color more. I also wish some of the drawings were more challenging. But other than that, I recommend this to everyone who has a passion to color, or is in need of a great stress reliever.

We are just children that grew up. We want to relax and explore our creativity. We want to play with different colors. We want our mind to go silent into a moment of pure flow. With these beautiful Patterns Flowers you can finally sit back and relax. Get out of the everyday life and get in touch with your emotions and your creative mind. You're home! You can relax now :).
