This book is set up already shaded for a certain look and I didn't realise it. I just wanted a straight coloring book.7 of 8 people found the following review helpful. Not a coloring book...By BethI'm not sure i'd say this is a coloring book. The pictures have so many dark areas that you just can't "color". If you were an experienced painter then yes, this book is for you. The pictures are beautiful and I do like them but with all the dark shading and dark areas you just will not be able to use color pencils and get the results you are after. Honestly, if did a better job with showing "what's inside" I wouldn't have purchased this book where shipping was higher than the cost of the book. Now, if I could paint, i'd be in heaven with this book!I tried to give a half star. I give this a 3 and half. Only because the pictures are beautiful.0 of 0 people found the following review helpful. Brother's GiftBy CharlyneI thought it looked like a

good book. Sent it to my brother in another state and have not obtained an opinion at this time.

Finally, an adult coloring book that guys will enjoy! Tim These designs look like paintings when they are done. Awesome. Mark I'm really enjoying the all the shaded areas. It makes things it easier to color. Bill Best selling adult coloring book artist Beth Ingrias presents a new style of adult coloring book that features 40 classic cars and trucks in a way that makes creating a work of art simple. Each design features pre-shaded areas which make the concept of shading very easy. Darker colors work best in the darker pre-shaded areas and any color can be applied to the lighter pre-shaded areas for highlights. Each finished piece looks like a painting done by a master painter. This concept has already become a huge hit among Beth's fans. Grab a copy of this adult coloring book for yourself and create incredible works of art worthy of framing. There are not many adult coloring books on the market with designs that men really enjoy. My husband asked me to create one for him using classic cars and trucks. While I was creating these designs, I experimented with many different techniques until I decided on the light shaded areas. Each design looks like a painting with no color. It is up to you to add the colors of your choice using markers, gel pens and colored pencils. Beth Ingrias.
