This is my favorite Christmas resource. For each project idea she gives concrete detailed ideas for each different age groups - from preschool on up, with lots of illustrations. I have made her paper advent wreath in my classes for the past 9 years - it always turns out great. I have also used her Christmas Creche

paper figures (2 different versions) also for the past nine years...both versions give a nice finished product. I have yet to try her ideas for Creche figures for older kids, but it is on my list of things to try with my now older kids. I originally found this book at my library, but I liked it so much, I bought my own copy!0 of 0 people found the following review helpful. Love itBy A. BirdI particularly liked that this book included Biblical crafts as well, a rare inclusion in this day age. Recommended0 of 0 people found the following review helpful.
