Memory Makers : All Girl Scrapbook Pages before purchasing it in order to gage whether or not it would be worth my time, and all praised All Girl Scrapbook Pages:

With that being said, they are pretty layouts if that is what you are looking for. If you are looking for inspiration, I doubt this is the book for you. I have great news for scrappers who are in love with vellum. I would say that every other layout used vellum on it. I also think that the tag maker was being pushed in this issue from Memory Makers. If you don't own one or something like it, you may find a lot of these layouts could possibly be hard to lift. 1 of 2 people found the following review helpful. Great Book By Holly Culbertson Another great book from Memory Makers. I have a little girl now, but this book will be very helpful in the next several years of scrapbooking for me. Lots of great ideas!
