John Lambert, Les Brown : Allied Torpedo Boats (ShipCraft Special) before purchasing it in order to gage whether or not it would be worth my time, and all praised Allied Torpedo Boats (ShipCraft Special):

3 of 4 people found the following review helpful. Indispensable Reference Work on PT Boats By A Customer As a lifelong model ship enthusiast, this was an outstanding addition to my library. Most highly recommended. The entire ShipCraft series is a winner. 1 of 2 people found the following review helpful. Great Book By Mark Hirschman Has a lot of good information as well as excellent reference pictures of the various boats. Sure to be used a lot. 4 of 4 people found the following review helpful. Coastal Forces By K.Schneider John Lambert and Les Brown, have done it again and written an excellent book on Motor Tored Boats during WW2. Packets with Text, Photo's and drawing it si a real

find for naval history and model buffs all over the world. All I can say is buy it ...and re-read time after time you see new information everytime!!!!

The ShipCraft series provides in-depth information about building and modifying model kits of famous warship types. Lavishly illustrated, each book takes the modeler through a brief history of the subject class, highlighting differences between sister-ships and changes in their appearance over their careers. This includes paint schemes and camouflage, featuring color profiles and highly-detailed line drawings and scale plans. The modeling section reviews the strengths and weaknesses of available kits, lists commercial accessory sets for super-detailing of the ships, and provides hints on modifying and improving the basic kit. This is followed by an extensive photographic gallery of selected high-quality models in a variety of scales, and the book concludes with a section on research references books, monographs, large-scale plans and relevant websites. This volume follows the format of the highly successful Flower Class where the extent has been doubled to include far more detailed drawings of the many different designs of British MTBs and US PT-boats, including their fittings, sensors and weapons.

About the Author Dr John Laband is a Professor Emeritus of History, Wilfrid Laurier University, Canada; a Life Member of Clare Hall, University of Cambridge, England; a Fellow of the University of KwaZulu-Natal, South Africa; a Research Associate in the Department of History, Stellenbosch University, South Africa; and an Adjunct Associate of the Laurier Centre for Military Strategic and Disarmament Studies, Canada. He is the author, co-author or editor of over twenty books on warfare and military culture in Africa, specializing in the Zulu kingdom and in nineteenth-century colonial conflicts in southern Africa. His most recent book is *Zulu Warriors: The Battle for the South African Frontier*, published by Yale University Press in 2014. Now living in the village of Greyton in the Western Cape, South Africa, he is currently the co-editor of *The History of Military Occupation* series for the University of Illinois Press, United States; and is a member of the editorial boards of the *Journal of African Military History*, and of *Scientia Militaria: South African Journal of Military Studies*.
