**Roy Thomas, Stan Lee : Amazing Marvel Universe** before purchasing it in order to gage whether or not it would be worth my time, and all praised Amazing Marvel Universe:

0 of 0 people found the following review helpful. For Any Comic Book Fan, This Volume Is a MustBy R. StahlThis book was originally purchased years ago at a nationally renown bookseller. Purchased it for just under ten dollars. Once home, the book was read quickly and I am not even a Marvel Comic (but rather a DC) fan, never have related to Marvel's array of characters, not even Spiderman. Yet this book is interesting. The author is without a doubt a Marvel Comic fan. That is very evident by his lavish praise of Stan Lee's work. Format and quality of the book's binding and multi-color pages indicate its intended purpose is to serve that of a coffee-table book. Size of this book is big, not thick, just enough pages are used by the author to tell the story about the Marvel universe and how it was created and about what variations the Marvel universe underwent over the decades. Thomas the author, does present Lee, et. al. as bonafide writers of legitimate literature, it being merely a comic genre. nonetheless still a legitimate product of both verbal and visual skills and creativity. Quite remarkable really.Recently, I found out one of my grandsons is a Marvel Comic fan. My volume was given to him. Later, I found out my granddaughter is a Marvel Comic fan, a comic book nerd her mom calls her, so a volume was purchased for her as a Christmas present. Can hardly wait until Christmas when I give her the book...to see her eyes go big and wide as the book is large and colorful.Much surprised to discover

a few more, but not many more, of these particular books are available, one going for as much as a few hundred dollars. 2 of 2 people found the following review helpful. A Most Awesome Gift By A. Alvarez I bought this for my boyfriend who is very hard to buy for. He has whatever he needs, and if he wants something, he'll buy it for himself. But I remember him telling me that IRONMAN was his favorite character growing up. When I did a search on and found this item, I bought it, knowing only a small chapter would be on IRONMAN. Well, he LOVED it! He read it within the first few days! He listened to the audio by Stan Lee. And even I read it and learned all about the history of the superheroes. I cannot wait to learn more, to read more, to buy more. The best part is that He Loved It! It was the best gift I ever bought him. 0 of 0 people found the following review helpful. Five Stars By D. Nava Stan The Man Lee. Get it before the legend is gone!

Superior production values. And above all STAN LEE SPEAKING. An amazing universe an amazing book! Stan Lee whose wildly creative imagination gave life to such superheroes as Spider-Man, The X-Men, and Daredevil presents his 50 favorite MARVEL-ous moments. This exclusive book and digital audio collection is a must-have for every comic book fan.
