I was looking for a reference that could explain how to distinguish brilliant period cut glass from other types of glass. It did a little bit, but I am still confused about the glassware I own and it's origins.3 of 3 people found the following review helpful. Four StarsBy MARGARET CURRIEGreat book for the. Beginner collector. Pictures are old style but get point across.0 of 0 people found the following review helpful. Very UsefulBy kherm1221Very informative book for my research. I inherited a lot of pieces of cut glass from the late 1800s through the mid-1900s and this book serves as a great reference book.
