Amy Brown : Amy Brown Faeries Coloring Book 2 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Amy Brown Faeries Coloring Book 2:

2 of 2 people found the following review helpful. 20 Lovely Faeries Coloring Designs printed on one side of the page By iiiireader[[VIDEOID:b38f511b220f782f742efb082f90eff8]] I own a couple of coloring books by Amy Brown. She has a unique style and look to her faeries that is really fun to color. I was really pleased to see that other of her older and out of print books are being re-printed once again. This is the second book in her series of Faeries. The designs have some detailed elements but are, for the most part, open and easy to color. I like the sense of movement I feel when I am coloring one of Ms. Brown's designs. There is always a feeling of flow and grace to her lovely creatures. This is what I experienced while coloring in this book and testing my coloring medium on the paper. 20 Hand-drawn Faerie Designs by Amy Brown Designs are printed on one side of thin, slightly rough non-perforated paper typical of CreateSpace. Glue Binding Easy to open to flat position for coloring Designs do not merge into the binding

and there is plenty of room to cut pages out if you choose to do so. Alcohol and water-based markers bleed through the page to some degree. Water-based bleed through in spots while alcohol-based bleed through freely. Gel pens and India ink pens leave shadows of color on the back of page. India ink can bleed through if you use multiple layers or apply heavily. Colored pencils work well with this paper. Both oil and wax based provide good color when I use multiple layers of the same color. I am easily able to blend (using a pencil style blender stick) and layer multiple colors as well. Hard lead pencils leave dents through the back of the page. Because of the bleed through and dents, I suggest (and use) a blotter page below my working page no matter what medium I use. I prefer card stock but several sheets of heavyweight paper work as well.

By Joanne I am a huge Amy Brown fan. I think I have gotten every one of her coloring books now. I keep looking to see if there is a chance if she has a new one the I may have missed. I like the way she catches the quirks and the different moods of the faeries, dragons, and other characters in her books. I like that she doesn't overload her page with background, but has just enough to make the picture fun and interesting.

By bradley pocock excellent art work

8.5x11 coloring book with 20 single sided pages of faeries. This is a re-print of Amy Brown's second Faeries coloring book originally released in 2010. Each image is single sided. We recommend putting a few sheets of paper under the page you are coloring to avoid bleed through if using markers.
