What a let downBy Jane in MilwaukeeShucks, I like this of the author's so much:Simply Samplers: Easy Techniques for Hand Embroidery (Needleknowledge)that I pre-ordered this reviewed book. It was just released so I paid full price. Had I seen it ahead of time, I would have passed it by. Sadly, the cover of both books look similar so I thought this book would be a lot more sampler/counted thread projects. No.

Except for the cover project, there's not another project that interests me. Well, maybe the Banded Tree Centerpieces which complement the cover stocking. What's with this craze lately of embroidering on felt? That just holds no interest for me. So, I'll be giving this book away and focusing more on the Simply Samplers book.0 of 0 people found the following review helpful.
