Haven't had time to use it yet.2 of 2 people found the following review helpful. The concept is great for Ancient Aliens fansBy Themis NikeThe concept is great for Ancient Aliens fans. It has popular Ancient Aliens highlights - for example, the Egyptian Pyramids, Great Serpent Mound, Anasazi Cliff Palace, Moai (Easter Island Statues), Great Ziggurat of Ur, etc. However, the illustrations just aren't what you would expect from an adult coloring book. They are about as complicated as what you would find on a lot of kid menus at restaurant menus, or in the Dover coloring books. The coloring pages paper quality is pretty good - not heavy, but not thin - a decent medium-weight paper. The cover is really wonderful - this is where they spent money on

this. It's slightly textured with beautiful color on the front, so it feels very high-quality (until you see the pictures). I feel like this would have been really excellent had the producers of the show paid the illustrator for just a *little* more effort. 4.5 stars for concept and quality. 1.5 star for content. 4 of 4 people found the following review helpful.
