This coloring book has 25 different designs (the referenced 50 comes from getting two of each of the designs.) The designs

really evoke the look and feel of ancient artwork to me. While they are not perfect replicas of known work, they have many of the iconic images I am looking for. The designs are very detailed with but not what I consider intricate. There are many areas to color but I can use most coloring medium without any issues. I think crayons might be more difficult unless you can sharpen them to a fairly fine point. While you can have access to .PDFs when you purchase this book, my review is based on the book as it is received from . That way you will know what the pages look like and how they accept color. I like that the publisher provides the digital version as well so you can choose the paper you wish to use and/or to color the pictures as many times as you choose. This is what I found while coloring in this book and testing the paper with my coloring medium: 25 x 2 Designs based on Egyptian Hieroglyphs with stylized poses. Paper is typical of CreateSpace: white, thin, slightly rough and non-perforated. The back of the page is printed black which is something I am find typical of Jade Summer coloring books. The designs do not merge into the binding. There is a heavy framing line at the outer edges of the design to give the project a more finished look, especially for framing. There is a slight shadowing effect to the framing line which gives the image an almost 3D effect. Glue Binding (there is room to cut the pages out if you choose to do so.) Though you cannot see the bleed-through easily due to the back of the page being printed in black, I recommend the use of a blotter page when working in this book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below. Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layers the same color for deeper pigment or multiple colors and I could blend easily using a blending stick. I tested both oil and wax based pencils. I also found that hard lead pencils leave dents through the paper. 5 of 5 people found the following review helpful. Happy happy! Paper works well with watercolor paints! By Vladimir Kushnir I am very happy with my purchase. Very good quality of pictures - clear outlines of beautifully done pictures. Paper quality is as expected for this price range coloring books - great for pencils. I like watercolor and the paper is quite adequate for watercolor paints too. It is not watercolor paper, those books are at least twice as expensive as this one. I really enjoy working with this book. Looked up what pigments they had in Ancient Egypt and mix similar shade paints to make my pictures look authentic. Getting a PDF file of the book is very helpful for future copies on watercolor paper. Will definitely buy more coloring books by Jade Summer. Just added the first page colored in watercolor paint. The paint worked pretty well on this paper.
