Helene Jacobs : Ancient Wire II - An illustrated guide to making jewelry from Viking, Roman and other ancient cultur before purchasing it in order to gage whether or not it would be worth my time, and all praised Ancient Wire II - An illustrated guide to making jewelry from Viking, Roman and other ancient cultur:

0 of 0 people found the following review helpful. Good layout and instructions By D. Parks Well researched and documented. Good layout and instructions. Spiral binding is handy for laying book open while using it to teach yourself a weave. Thank you for sharing your knowledge. Laurel level project. highly recommended. 0 of 0 people found the following review helpful. Great books to have if you love working with wire By Rebecca Gonzales-Clayton Great books to have if you love working with wire. Some great ideas to incorporate into other crafts as well using wire and beads. 0 of 0 people found the following review helpful. Pass By Moe Thurgous I have BFA in Jewelry and Metalsmithing and thought this title would be a fine addition to my library and skill set. Alas, the book provides meager examples, less than technical instructions, and DIY repurposed household gadgets as tools. No technical revelations here, nothing that couldn't be extrapolated [by a trained jeweler] by visual inspection of photo or artifact.

This book will show you how to make jewelry designs that have been around for over 1000 years - timeless items that

are still beautiful today. Photographs of artifacts that I own, along with detailed measurements of them are included in this book. I hope this will help those wishing to recreate historical jewelry. No heat or flame is required for any of these designs and most of the tools are portable. Pieces include: Beaded oval earrings from the Viking culture, Coiled end earrings from Luristan, Iran 1000 BC and the Viking culture, Double spiral ring from the Etruscan, the Celt, the Roman, the Saxon and the Viking cultures, Knot ring from the Viking culture, C bracelet from the Sumarian, the Germanic, the Celtic, the British, the Roman, the Turkish, and the Scottish civilizations (beginning about 2100 BC), S Link chain and folded dangles from the Viking culture, Glass bead pendant from the Viking culture, Triple loop pin from the Macedonian culture. 94 pages - 164 Black and White illustrations The designs presented in Ancient Wire II are created using different methods than those taught in my first book, Ancient Wire.
