I highly recommend it,1 of 1 people found the following review helpful. From Your Heart to your HomeBy Home IndependenceThis is one of the best reads that I have had in a long time. It shared so many tips and projects that I had been looking for. It feels like you are having a face to face conversation with the author rather than just reading a book. A must read for everyone.0 of 0 people found the following review helpful. Awesome Book!By CustomerI have the kindle version of this book and have referred back to it many times. Excellent ideas, recipes and such. I am trying to keep things simple in my home which means not a lot of books laying around. But tonight decided it's time to have a hard copy of this book on my coffee table.

Your home is your gathering place for family and friends. Does it feel welcome, warm and comforting? We all need a place of belonging, a place to escape to. A place called home. From Your Heart to Your Home covers all of this from the front sidewalk, through the rooms in your home to the backyard. This book will teach you how to refurbish furniture, to grow and harvest plants and herbs, to add scent everywhere in your home, to create, to learn, to have fun and to see your home through your heart. Let's craft, sew, decorate, celebrate holidays, write a journal, do things with our kids, introduce comforts into our lives, let's make potpourri and sachets, remake our bed, make homemade beauty products, make herbal crafts like a tussie mussie, feed the birds, cook, make vinegar bottles and herbal butter, learn to care for a cast iron skillet, supply our own tool box and learn the differences in paint. Let's be aware of some financial problems that plague us daily, the interest of charge cards, learn what BPA is and do some little reading about God. Let's get started. I have lots to show you.
