Layouts can be altered to the bride's colors and the events of the wedding. One of the best I have seen - covers not just portrait layouts - but actual events and moments during a wedding. 0 of 0 people found the following review helpful. A waste of money By Zainabu This book has scrap book pages that are too busy, no elegance and if you are looking for ideas don't buy this book. I would not

recommend it to anyone.0 of 0 people found the following review helpful. Not Very Stunning At AllBy David FinkelsteinNot very stunning at all. Rather dated photographs and designs. I found a few to use. Didn't pay much for the book, so I wasn't too upset about it.

A wedding is one of the most important events in a person's life. Scrapbooking Your Wedding offers a plethora of unique scrapbook wedding page ideas and detailed instructions for re-creating cutting-edge scrapbook techniques. There are more than 150 scrapbook wedding page ideas with detailed how-to instructions for re-creating featured artwork. Many ideas for preserving and displaying wedding memorabilia. The wedding day scrapbook will have and hold cherished memories for generations to come. A perfect wedding gift. Paperback: 128 pages.

""This stunning wedding montage page draws its beauty from the aged 'altered' book look that is taking the scrapbooking world by storm. Walnut-stained paper and tags meet metal accents, fibers, lace and ribbon for a page that is both old as love and fresh as a bride."
