It also has graph paper and lined paper inside.5 of 6 people found the following review helpful. not bad for it's price- but not the best you could doBy CustomerI do like the journal, it's a good size and paperweight is perfect for pens and pencils (don't touch it with markers though)only problem I have is that the paper isn't mixed throughout. the types of paper are in solid blocks, and I would have found it better if it was more along the lines of 2 sheets of grid dots, one sheet lined, one sheet full grid, in a repeating patternor something like thatit's usable, and I love how it looks, but you don't really get to use the paper to it's full potential until you preset your book up into section/chapters1 of 1 people found the following review helpful. I bought this to use as a Bullit journal and it would perfect if the pages were not so thinBy addisonIt's an OK notebook. I bought this to use as a Bullit journal and it would perfect if the pages were not so thin. My gel pens bleed through even if I'm pressing lightly.

Ditch that plain spiral notebook currently taking up too much room in your backpack or bag and get yourself a bullet journal!
