I love candles and I find that the smells they put in the air really help me to focus and relax. Though, they can be so pricey. The solution is, of course, to make them yourself. However, how do you make candles? That was my question and also aren't they dangerous to make or difficult. I couldn't have been more wrong. This book breaks down the complex process into simple bite size instructions. You get the ingredients and the flow the process for making candles quickly. It wasn't just easy to make them but also fun!0 of 0 people found the following review helpful. Great collection of candle designsBy PeterMy kids love decorating candles so I decided I'd give a try for candle making. I haven't considered so far to do it on my own, but it looks easier than I thought. The formulas of the candles are great, the instructions are easy-to-follow. Making a candle needs a lot of things and some experience but well worth the effort. I'm going to try it soon.The only thing I'd suggest to have images in the book to make it colorful.0 of 0 people found the following review helpful.
