It is a darker themed one, still some super hero girls and sexy killers along with a few different creatures and then just a few SUPER weak pattern pages. Same quality as the first :) 3 of 3 people found the following review helpful. Four Stars By Chris Most of the drawings are a bit simpler than the first coloring book. 0 of 0 people found the following review helpful. While some of the pictures looked like they may have been enjoyable to color By Wendy C Unfortunately, I returned this book because it contained too many pictures that had a sketch design instead of clean lines. While some of the pictures looked like they may have been enjoyable to color, too many pictures gave me anxiety. While this is a nice book, it did not suit my needs. It would have been helpful if the

seller provided more samples from the book. I don't want to give the wrong impression. This is a nice book. It just wasn't a good fit for me.
