Allison Harris : Growing Up Modern: 16 Quilt Projects for Babies Kids before purchasing it in order to gage whether or not it would be worth my time, and all praised Growing Up Modern: 16 Quilt Projects for Babies Kids:

0 of 0 people found the following review helpful. Perfect for beginner quilterBy CarolIt was a pleasure to have selected this company for my purchase of Growing Up Modern quilting book. Customer Service is terrific and Chloe was truly concerned that I should be happy with receipt of my purchase!This quilting book is perfect for the beginner. Includes clear instructions and examples to aide in the construction of some very cute quilts. I was particularly interested in the quilt/pillow design.0 of 0 people found the following review helpful. Five StarsBy B Gr.Great book and seller was good too.0 of 0 people found the following review helpful. Finally!By dlmsI'm new to quilting and this book gave me everything I need to make quilts for my new grandchild. Easy to understand instructions and modern quilt patterns in 3 kid friendly sizes. Plus a few other interesting pieces. A book pillow and a quillow! That's a quilt that folds into its own pocket to make a pillow. What fun for a child. The book also gives easy shortcuts and tips for

those who have little time to sew and create.

Allison Harris shows how beginner and expert sewists alike can make a child's quilt that will be cherished for years to come. *Growing Up Modern: 16 Quilt Projects for Babies Kids* provides inspiration and guidance in 16 versatile keepsake projects. 7 of the patterns adapt to make crib- and twin-sized quilts. There's a comprehensive overview on quilting basics, step-by-step instructions, and vibrant photographs to help you from start to finish. For those who believe that quilting is impossible when you have kids, the author (and mother of 3) includes helpful hints on finding the time and keeping it fun.

As a new working mom, I struggle to find the time to quilt as often as I would like to. This book addresses just that issue. Allison Harris understands what it's like to have the creative bug for crafting and quilting, and she gives some great advice: from giving your kids scraps of fabric to glue on a cut-out cardboard letter, to being realistic and limiting yourself to two projects: one small faster project, and one more which you might have started a while ago. That way you'll most likely finish the projects that you start! I also really love the projects she's put together for this book because they mix a variety of skill levels and she features quite a few modern designs that I'm attracted to.

(connectingthreads.com, June 2013) This is a very beginner-friendly book written by a busy mum, who shares tips on how to find time for quilting when you have a few littlies running (or crawling) around. There is a lot of easy-to-follow information on quilting basics and the projects (12 quilts, a pillow and a quillow) are sweet and simple. This book would make a perfect present for a young mum who wants to make her first quilt but is not sure how to start.

(Down Under Quilts Magazine, June 2013) Allison Harris presents 16 patchwork projects to make for children in the 'modern quilt' style of large patches, lots of solid fabrics and straightforward stitching. The book has been designed specifically for busy mums (and grandmothers, aunts and friends) who want to make quilts for young children that will be snuggled with, dragged around, made into forts and loved until they are worn and thin. The projects are beginner friendly indeed, Allison makes the point that if you're only just starting out on your quilting journey, these quilts are ideal, as "kids don't care if you make a mistake." Almost half of the projects include instructions for making the quilt in crib and twin, as well as 'baby' size. There are also chapters on quilting basics. Each quilt is shown in a flat shot as well as in one or more additional photographs, and coloured diagrams are provided to assist with cutting and assembly. (Australian Homespun Magazine, July 2013) There are some really cute patterns in this book and as with all Stash Books, it has great illustrations for the patterns to help you along the way and awesome instructions too.

(www.pleasant-home.com, 8/12/13) *Growing Up Modern: 16 Quilt Projects for Babies Kids* is for beginners and expert sewers alike who will enjoy a solid collection of kid-oriented quilts for quilts or small children alike. Seven of the patterns adapt to crib and twin-bed-sized quilts alike, with step-by-step instructions and color photos throughout simplifying the process of producing quilts especially tailored for young people. From time-saving quilting tips for those with kids to keys on making quilts that are welcomed, this is a lovely project book for all quilter levels. (The Needlecraft Shelf, 9/6/13) Whether you're an experienced quilter or a new kid on the quilt block, this book has something to offer for any of the young children in your life. Designed with busy moms in mind, this book has 16 quick and easy projects, 7 of which can be easily adapted from crib and twin sizes. If you're looking for something different, you can try patterns for a quillow and a reader pillow, which has a pocket for storing your child's favorite book. Filled with helpful diagrams, charts, and other visuals, this book also provides basic, beginner-friendly instructions for piecing a quilt top, layering, and finishing a quilt. And if you're a mom, there's a bonus short-but-sweet section with realistic advice on finding the time to quilt when you have young kids at home. And we all know that may be the hardest part of all! (International Quilt Festival - Quilt Scene, 10/1/13) About the Author Allison Harris is a stay-at-home mom who sews whenever she can squeeze it in. Her sewing adventures, tutorials, and patterns can be found at her popular website www.cluckclucksew.com. She lives in Seattle, Washington with her husband and three kids.
