While it is a lovely book, like other reviewers stated, it is completely missing the letter "Q".On pages 10 - 11, where both the upper- and lowercase alphabets are shown, "Q" and "q" are shown as a "G" and "g". On page 45, where the letter "Qq" is taught, the examples all over the page are "Gg"s.Lastly, on page 81, Christmas is spelled "Chrismas". How sad. This would not be the end of the world except that the entire reason for owning this book is to learn proper letter formation through copywork. This is supremely difficult to do when having to deal with misspellings and/or letters that are altogether left out. :/3 of 3 people found the following review helpful. Great trainer for a budding artist!By Mom by LoveI gave this to my daughter for Christmas, because her gma, her sister and I all do a lot of calligraphy, and she's been wanting to learn, but I wanted documentation that I could use for her homeschool art grade. This product fit the bill. She took off like a shot, using Shaeffer's one-pen, three-nibs set, which she also received for Christmas. I had assigned her to do the pages on school days, but she was getting ahead, doing them even on weekends, and doing mmultiple pages a day. So, we let her enter a regional art competition, and she advanced to the next level, where she took second only to her own sister, who has been doing calligraphy for 3 years. Very cool process! The pic shows one of her earliest rough drafts.
