From Clarkson N. Potter - Oxmoor House : Handmade Christmas (The Best of Martha Stewart Living) before purchasing it in order to gage whether or not it would be worth my time, and all praised Handmade Christmas (The Best of Martha Stewart Living):

0 of 0 people found the following review helpful. Truly one of the best holiday idea books ever writtenBy Mary's MommyTruly one of the best holiday idea books ever written. I bought this book when it first came out in the 90s and I used it so much that I've worn it out. I cut out the sugar cookie recipe and used it for years decades and then lost it. So I had to buy the book again because I could never find the sugar cookie recipe. It is that good. The The photos are beautiful. The instructions are easy to follow.0 of 0 people found the following review helpful. Great nostalgic findBy AmandahsfThe other reviewers seemed to like the gift wrapping ideas, but in my opinion this was not nearly the best parts of the book. The overall Christmas decor and the home beautification along with the recipes is much better. For better gift wrapping ideas, you can find on her blog and also on Pinterest. Great addition to the Holiday ideas, and will be sure to get anyone into the spirit!1 of 1 people found the following review helpful. Three StarsBy BeachmomEasy to make crafts but nothing really new.

Handmade Christmas is filled with ingenious ideas for creating a personal and festive holiday. From creating holiday window boxes or a gingerbread mansion to making your own gift wrap, Martha Stewart offers a stylish, inventive guide. 200 4-color photographs.

From Publishers Weekly Inspiration is the key to a memorable Christmas season, says Stewart at the start of this collection of recipes and projects for assembling the mostly easy gifts and decorations culled from the last four years worth of Martha Stewart Living magazine. Some of the ideas seem drawn from the far edge of inspiration: tiny boxes made from acorns, sanded and stained and stopped with corks; a living wreath fashioned from 20 kinds of succulent plants; starfish and other shells studded with silver dragees; gift wrapping made from brown paper lunch bags sealed with decorative machine-stitching. Some processes, like gift tags and cards printed with potato stamps, go back to techniques taught in grade school, but even these are given new life by Stewart's sophisticated eye and careful execution. Clear instructions and tempting photos accompany every holiday treat, from porch swags to pomander bowls and candles, rolled, dipped or molded. A list of sources for materials is included.
