I highly recommend this product!0 of 0 people found the following review helpful. Good READBy mandapanda03I liked reading this it was helpful gave a lot of information that I was unsure of, good read.0 of 0 people found the following review helpful. Three StarsBy Kathy WolfeThe information is good but it's much

smaller and more simplistic than what I was expecting.

Most people have never thought of making their own soap and even fewer have considered the benefits of vegan soap. Through this book, you will see what soap is, how it is traditionally made, why vegan soap is different from traditional soap, the benefits of vegan soap, and reasons you should be making your own vegan soap. Included at the end are several recipes to get you started making your own vegan soaps.
