This is a really nice book and I enjoy to make each blocksBy Miyuki G.This is a really nice book and I enjoy to make each blocks.From January to December, you can make beautiful blocks.You can arrange as large quilt or also you can make table runner for some blocks.When I make blocks from this book I use lots of scrap fabrics and it is really fun for me.I think as skill builder , this book is nice.1 of 1 people found the following review helpful. Great applique bookBy Jean1921I chose this rating as I really liked the book. I

saw it elsewhere for more money but wouldn't pay that price. This price was right. Book is applique patterns and not a lot of pieces yet very attractive. Would recommend this book to someone who has done enough applique to gain a little confidence and now ready to move up to the next level. I would not discourage a beginner from using these patterns. One could take one or two things, flowers, etc out of a pattern to create a simpler block and still have a pretty piece of handwork. 0 of 0 people found the following review helpful. Five Stars By Gerri One of the best applique sewing book. The photographs, instructions and details are terrific Happy with my purchase.

This is a superb collection of 12 inspirational quilt blocks from best-selling author and quilter Edyta Sitar. Beloved fabric and quilt pattern designer Edyta Sitar has designed 12 gorgeous quilt blocks that take you through the seasons of the year. Five settings provide the foundation for creating a one, two or four block applique project as well as a 12 block-12 month full-size calendar quilt. Each applique quilt block features one or more of Edyta Sitar's beautifully crafted "silhouettes" for raw-edge machine applique. Also included are step-by-step instructions for Edyta's raw-edge applique technique, full-size templates, and a practical guide to using background quilting to enhance the look of your project.

Designer Edyta Sitar from Laundry Basket Quilts has included 12 stunning nature-inspired quilt blocks in her latest book. The vibrant raw-edge applique blocks (one for every month of the year, much like a block-of-the-month program) were designed with colors and themes of the seasons and are featured in a variety of settings, from a table runner to a twelve-block calendar quilt. An ideal book for every level of sewer, *Seasonal Silhouettes* provides helpful information on selecting the perfect color palette, suggestions on Edyta's favorite applique and sewing techniques, and lists of the supplies she finds most useful. Full-size patterns and placement diagrams are included in the extensive pattern section, and the beautifully detailed photos of each block allow you to see the background quilting. Stitch one, three, or all twelve blocks to keep your favorite seasons in view throughout the year! --Quilt Trends; Fall, 2013 *Seasonal Silhouettes* is Edyta Sitar's newest book. Inside you will find 12 raw-edge applique blocks inspired by nature, along with 5 project settings. The instructions in this book are very well written and complete. The technique used, raw-edge applique, requires that you fuse the block pieces to the background then machine stitch around each piece. Instructions and photos walk you through each step in the process. Edyta shares her thoughts on supplies and her techniques for selecting fabrics. The design of the blocks are just beautiful and well drawn. Each of the 12 blocks comes with a full size placement diagram with each piece identified by a number for easy placement on your block. Background quilting and binding is also covered. Make a project for each season or a quilt using all 12 blocks. --The Applique Society Newsletter; July/August, 2013 *Seasonal Silhouettes: 12 Inspirational Quilt Blocks Featuring Raw-Edge Applique* is a beautiful bouquet of 12 stunning quilt blocks with raw edge applique, designed to reflect the beauty, color and drama of the changing seasons. Each block can be made as a separate project (there are five setting ideas), or they can be combined into a 12-block full size quilt. Beautiful color photographs of finished blocks, projects and quilts enhance this lovely book. The craft of silhouette applique designing is perfectly illustrated in these artistic block patterns. Along with step by step instructions for raw-edge applique technique, full size templates for each block are included, no enlarging needed. Background quilting and binding techniques are also explained, and complete supply lists and fabric requirements for each block are stated clearly. The color photos of the completed blocks are stunning. As a measure of the author's artistry, for example, the pattern for June includes the following: "Pink painted daisies, mouth-watering watermelon and unexpected guests are the perfect trio for a summertime picnic." When the reader looks closely a tiny black ant, created with fabric marker, crawls along the luscious slice of watermelon. Thus nature is the inspiration for each seasonal silhouette's pattern and design and color palette. These shimmering quilted blocks are subtly magnificent, inspiring quilters everywhere to new heights of creativity. --The Midwest Book ; June, 2013 About the Author Edyta Sitar is an internationally renowned fabric and pattern designer.
