I love to colour but it seems a bit of a pity that you don't really do much with the picture afterwards. This way, I get to send out postcards to my friends after having fun with the pictures!The postcards are pretty thick and when I used inks they don't bleed through. However, the paper will tear after a bit, and this is one of the very few reasons I took a star off. The other major reason is that the pictures are pretty small, and so some details are not great if using colour pencils. I can use ink on them but then it gives me very little room for creativity.I was given this as a present from a friend, but I loved it so much I got 2 more for my friends so that they could have fun with it too. I wouldn't mind even to get another one for myself!89 of 92 people found the following review helpful. Postcards, yes, but great for other uses ...By L. MountfordWhere to begin? I purchased Johanna Basford's Secret Garden coloring book Secret Garden: An Inky Treasure Hunt and Coloring Book awhile ago, and was so enchanted with it that I pre-ordered this postcard set. It finally arrived, and it was definitely worth the wait.These include more of Johanna's beautiful work in a small postcard sized format. They're printed on heavy-weight cardstock, suitable for just about any coloring medium. I tend to use mostly colored pencils, but I'll likely be using some alcohol markers with these as well (Spectrum Noir or Copic).I make hand-crafted greeting cards, and these are the perfect size to use as card fronts. I can add some heat embossing by coloring with a Versamark pen Tsukineko Dual-Ended VersaMarker Pen in Bag, then sprinkling with embossing powder and heat to add a bit of "zing." Speaking of "zing," Stickles glitter glue could also be used with these Ranger TDS-25023 Tim Holtz Designer Series Distress Stickles Glitter Glue, Scattered Straw, 0.5-Ounce.They would also be lovely matted and framed in a set with coordinated colors.The fine detail makes these

designs both intricate and interesting, and the garden theme is charming. I can't wait to use several of them in my cards. (I'm about 3/4 finished with one of them as I type this.)If you like Johanna Basford's work, you'll LOVE these postcards. Highly recommended.57 of 59 people found the following review helpful. Dainty!By MiddernachtI received a box of these note cards as a gift and they are very beautiful. It is nice stock paper and the pictures are delightful. I colored my first one with Staedtler Triplus Fineliner colored pens and they did not bleed through.It takes a little patience and concentration to color in the small spaces but the results are worth it. Getting a pair of magnifying eye glasses helps. :)

Tumble down the rabbit hole and find yourself in an inky black-and-white wonderland.Following on from the success of the best-selling coloring book Secret Garden by Johanna Basford, this set of notecards is packaged in a gorgeous decorative box that you'll want to keep.There are 12 notecards with four different designs to suit a variety of occasions, left blank inside for your message, and 12 envelopes.Appealing to all ages, the intricately-realized world of the Secret Garden is both beautiful and inspirational.
