Such Beautiful Work!By buzzeebieI so enjoy the imagery and inspiration in this wonderful second book from a very talented and generous artist! I find I won't be able to tear the book apart, however. It's just too pretty. I will more likely use the images as I learn to inform my own style, as well as make copies of desired images onto appropriate weight papers for particular projects. Thanks so much for your open, loving, sharing kindness. You so embody this much-needed spirit for all of us, close to home as well as across our borders.
