**Frederic Wertham : Seduction of the Innocent** before purchasing it in order to gage whether or not it would be worth my time, and all praised Seduction of the Innocent:

Result of 7 years of scientific investigation into the effects that comic books have on the minds and behavior of children who come in contact with them. His ideas on the harmful effects created by media-induced violence resonate with those who are concerned by the searing of our cultural fabric. Includes new Introduction by Wertham scholar, James E. Reibman, Ph.D. Amereon books have been proudly made in the United States of America for over 40 years. The avoidance of OCR software in addition to sourcing the highest quality originals, allows Amereon to provide readers with the best possible hardcover books.
