Great presentation and ideas for gift giving. This is a hardcover bound book that you may want to leave out on your coffee table for guests to browse through. It will definitely catch their eye, and I'll bet many of them will want to purchase this book also. Not only are the gifts in this book great, but the book itself would make a great gift. I can't believe it was so inexpensive. Guess it is because it was copyrighted in 2001. But, who cares!! It is a beautiful book with tons of delicious recipes and pretty packaging ideas as it states on the cover of the book. Most of my friends have told me they love getting homemade gifts more than any purchased gift because homemade gifts have more heart and meaning in them.8 of 10 people found the following review helpful. I want one now!By Sara WestheadI bought this as a bridal shower gift, and now I want one. There are lots of great ideas in here - especially if you want to give gifts to people, but really can't afford to.Each recipe not only comes with a full colour photo, but also instructions as to how to package it. The ideas are inspiring, and easy to play with to personalize for the gift receiver.I think it makes a great shower gift - especially as newlyweds never have money, and have tons of people to give gifts to!17 of 18 people found the following review helpful. How to make friends with food giftsBy Letta MeinenI truly loved this book, it incorporated my love of

experimenting with food and crafts. The crafts come in when you make an interesting container to hold your food gift. This book has over 325 ideas for kinds of food to make and appealing packages to hold them. There are five different sections which contain the following: Giving Thanks, Bright Birthday Wishes, Cherished gifts for all seasons, Merry gifts for Christmas and Between friends Neighbors. Each section has beautiful pictures of the item to be made. The instructions and recipes are easy to read and understand. They give detail information as to how long these foods will keep in refrigerator or freezer. The instruction of the containers for your food gifts list exact materials needed. They give several suggestions whether your gift will need a box, jar or packaging. There are decorative suggestions as ribbons, jewels and ideas for gift tags. I have tried many of these recipes as I had my family here for a visit for a few days. This book is full of unusual foods such as Cheddar Crackers, Garden Bread, Spiced Honey butter, Red Onion Marmalade, Champagne Truffles, Key Lime Fudge, Soft 'n' Chewy Pretzel Sticks and Carmel-nut Corn to list a few of the things I prepared from this book. This give you an idea of the variety of food gifts are available in this book. I will use this book many times especially this Christmas.
