Sarah Thomas : Soap Making: Recipes and Practical Tips on Making Organic Natural Hand Made Soap before purchasing it in order to gage whether or not it would be worth my time, and all praised Soap Making: Recipes and Practical Tips on Making Organic Natural Hand Made Soap:

0 of 0 people found the following review helpful. I never made a soap before but i felt the soap that i bought at

supermarket has low quality and my skin doesn't feel very comfortable. I never made a soap before but I felt the soap that I bought at supermarket has low quality and my skin doesn't feel very comfortable, so I decide to follow this guide to make my own soap.

0 of 0 people found the following review helpful. Plenty of Soap Making Tips

By Oezi This book is loaded with information of the different kinds of soaps there are. It gives some great pointers on making soap for beginners for which I would be. I have never read up on making soap so I have nothing really to compare this book to. I can see the value of making your own soap and the value of doing so. You would know what is in your soaps which especially if you have allergies this would be important. It gives what appears to be shortcuts in making soap. I received this book free to give my unbiased opinion and honest review which is strictly my own.

1 of 1 people found the following review helpful. Yet another illiterate author

By Kindle Customer While the contents of this ebook appear to be marginally useful, the recipes are very similar to those found in other, similarly priced, ebooks. Unfortunately, this ebook is so poorly written that understanding what the recipes actually mean could be a challenge. A competent editor would raise the quality of this ebook by at least two stars.

Soap Making Recipes and Practical Tips on Making Organic Natural Hand Made Soaps at Home From Scratch

The precious art of soap making dates back to 2200 BC, where the Egyptians created a method of combining animal and vegetable oils with alkaline soap ingredients to create lathering like substances for cleansing. Over the years this art has developed into a worldwide business that offers a diverse range of soaps. From bar soaps that smell like candy to creamy velvet liquid soaps that make your skin baby soft. The great thing is, Soap making which enables the production of these diverse cleansing products is a fun craft art and hobby that you can easily pick up! From creating personal gifts for special occasions and loved ones to allowing your creative juices flow for business purposes; knowing how to make your own soaps will give you control over what goes into them! Take a little journey through this book to understand the process of creating natural/organic healthy soaps from scratch. It will teach you about the most basic ingredients needed for the soap making process and how they may affect your skin, walk you through the necessary instruments you will need to start making soaps and it includes simple recipes for a variety of exquisite homemade soaps.
