There are nearly 100 patterns. They are nice patterns too! This book is very well done. 200 pages! It's my new favorite pattern book. I highly recommend it.1 of 1 people found the following review helpful. Needs some colorBy K. WatsonThis book has lots of nice patterns in many different styles -- from traditional side lights to more modern panels. The only thing lacking is some color for the more detailed, landscape-type patterns.0 of 1 people found the following review helpful. Unique bookBy Honest AbeThis unique book was purchased to give me ideas for quilting. I wasn't disappointed; it certainly

stirred up the creative juices for me.

There are 180 motifs, more than any other book, and theyll work with any technique from Tiffany to grisaille. Use them on lampshades, decorative boxes, windows, panels, and more. Simply photocopy the pattern, and reduce or enlarge it to size. Theres an entire section of patterns for doorways, mirrors, room dividers, or table tops; another group of motifs features modern geometrical patterns inspired by Frank Lloyd Wright.
